Some EV availability

EV CAR	AC/DC CHARGING	CONNECTOR(s)	AC CHARGER & BATTERY SIZE
Opel Ampera/ Chevrolet Volt	YES/NO	Type 1 – SAE J1772	1ph <16A 10 kWh
Mitsubishi iMIEV/ Peugeot iON/ Citroen C-Zero	YES/YES	Type 1 - SAE J1772 CHAdeMO	1ph 16A 20 kWh
Mitsubishi Outlander	YES/YES	Type 1 - SAE J1772 CHAdeMO	1ph16A 12 kWh
Nissan LEAF	YES/YES	Type 1 - SAE J1772 CHAdeMO	1ph16/32A 24 kWh
Volvo V60 Plug-in Hybrid	YES/NO	Type 2 – Mennekes	1ph <16A 11 kWh
Toyota Prius PHEV	YES/NO	Type 1 – SAE J1772	1ph<16A <5 kWh
M-B Vito E-cell	YES/NO	Type 2 - Mennekes	2ph<16A 20 kWh
Ford Focus Electric	YES/NO	Type 1 – SAE J1772	1ph 16A 23 kWh
VW e-Up! & eGolf	YES/YES	CCS	1ph 16A 24kWh
BMW i3	YES/YES	CCS	1ph 16A 19kWh
Tesla Model S	YES/(YES)	Type 2 – Mennekes / Super Charger & CHAdeMO	3ph 14A/28A 60/85kWh
M-B B-series	Yes/No	Type 2 – Mennekes	3phs 16A 28kWh

Chago Station

Configurable AC charging

Ensto Chago Station is a solution for charging with possibility for user authentication and connection to back-end systems. It is suitable for both single-phase charging at 16 A and three-phase charging at 32A.

- **Configurable charging station**
- **Stylish design for demanding environments**
- **Safe and easy to use**

Chago eFill

Chago eFill

Compact wall mounted charging point with fixed charging cable. Versions for Mode 3, both Type 1 and Type 2 available. Stylish and durable design particularly suitable for simple home charging, when built-in over-current and residual current protection or link to backend systems are not needed. Tricolor indication LED light. A separate charging plug holder can be installed to the wall.

Rapid mounting versions also available that are equipped with a special wall bracket and fixed supply cable to enable rapid mounting. The supply cable is delivered with industrial CEE Plug 16A, 5-pole.
